6+ Years

Supply chain experience

PKR 3-4M

Monthly purchasing managed

60+ Vendors

Across 5 material categories

7 Divisions

Supplied in a 65-staff plant

PROFESSIONAL SUMMARY

Procurement and supply chain professional with 6+ years at The Art Lines, a Karachi kitchen and interior manufacturer, promoted from Warehouse Manager to Procurement Manager. Runs the complete supply chain cycle, from demand analysis, sourcing and purchasing to warehousing and daily logistics, for a 65-person operation across 7 production divisions. Manages **PKR 3-4 million in monthly purchases** through a network of **60+ vendors**, choosing suppliers on three tests: **lowest landed price, reliable quality, and availability and delivery performance**. Also co-founder of an architectural hardware trading brand, and a BS Public Administration candidate (CGPA 3.5, graduating December 2026).

PROFESSIONAL EXPERIENCE

Procurement Manager

2023 – Present

The Art Lines – Kitchens & Interiors, Karachi

- Own end-to-end procurement for a 65-employee manufacturer (7 divisions, about 90% imported material), with **PKR 3-4 million** of purchasing each month.
- **Demand analysis:** turn the operations team's project pipeline into material requirements, consolidate all requisitions at a single point and time orders so every project meets its production lead time.
- **Vendor management:** built and run a base of **60+ suppliers** across boards and sheets, hardware, PVC and edge banding, polish, wood and marble, rated on price, quality and availability/performance.
- **Cost-effective sourcing:** split orders by each vendor's strength. For example, routine hardware goes to a supplier who delivers on time on credit, Blum systems to a specialist dealer at standard rates, and selected items only where the tax-inclusive landed cost is lowest.
- **Negotiation result:** on a single Blum hardware order, compared three dealers item by item, negotiated hinge prices down and split the order by lowest cost per item, **saving about PKR 45,000 in one day** with one combined pickup route.
- **Logistics planning:** design the daily transport rotation, routing finished-goods deliveries to as many as **5 project sites in a day** alongside inbound pickups against purchase orders, and track and cut daily transport cost.
- **Supplier accounts:** match supplier bills against purchase orders and received quantities, reconcile vendor ledgers, resolve discrepancies and submit verified invoices to accounts for timely payment.
- **Warehouse control:** supervise a 2-person team covering inventory records and demand updates, data entry, and issue of materials to production departments.
- Prepare the paperwork that feeds production (quotations, agreements, project detail sheets, cutting lists, material lists and delivery challans), and lead its digitisation into an **Excel-based manufacturing and cutting-list system**.
- Handle urgent material requests and site complaints on priority to protect installation deadlines.

Warehouse Manager

2020 – 2023

The Art Lines – Kitchens & Interiors, Karachi

- Ran warehouse operations for raw materials, hardware and finished goods; kept stock records accurate and matched to live project demand.
- Received supplier deliveries against purchase orders, checking quantity and quality, and issued material to production on schedule.
- Coordinated dispatch of finished kitchens and wardrobes to client sites; built the stock and vendor knowledge that led to promotion to Procurement Manager.

Part-time Teacher

2022 – 2025

Scholar Grammar School, Karachi

- Taught and mentored students alongside full-time work; prepared lesson plans and learning material.

ENTREPRENEURIAL VENTURE

Co-Founder – Idrees Traders & Corporation (ITC)

2026 – Present

Architectural hardware and accessories brand: wardrobe, kitchen, aluminium profiles, sinks and faucets.

- Set up import sourcing from overseas manufacturers and designed an in-house **product coding system** across 4 product lines.
- Built the brand identity and **4 print-ready product catalogues**, plus quotation and invoice templates for trade and retail buyers.
- Launched social media channels; website in development, with the first marketing campaign starting in Q4 2026.

INTERNSHIPS

Intern, Sales & Procurement Departments
Pakistan Security Printing Corporation (PSPC), Karachi

Jun 2026 – Aug 2026

- **Procurement:** prepared RFQs and learned PSPC’s public-sector requisition and tender-uploading process.
- **Sales:** studied departmental workflow, team coordination and customer communication; developed a **flowchart and roadmap for PSPC’s participation in international security-printing exhibitions** (e.g. Intergraf Currency + Identity, HSP EMEA/Asia, Identity Week).

Research Intern
Urban Resource Centre (URC), Karachi

May 2025 – Jul 2025

- Co-authored the research report **“Evolution of Karachi’s Public Transport” (1947–2025)**, tracing KCR, minibuses, Qingqi rickshaws, ride-hailing apps, BRT and the People’s Bus Service.
- Conducted field surveys, documentation and policy research on the city’s transport gaps and environmental impact.

LEADERSHIP & ACHIEVEMENTS

Hult Prize 2025 – University Runner-up, University of Karachi (Mar 2025). Pitched **“The Noveducators”**, a skills-based, activity-led and collaborative education model from nursery to bachelor’s level, as an alternative to theory-only schooling.

Team Lead – 2nd Position, Shehri – Citizens for a Better Environment, one-year civic programme (Jan – Nov 2025). Led a team project on Qingqi rickshaws and their impact on Karachi’s transport; took part in community programmes, panel discussions with politicians, bureaucrats, NGO leaders and academics, and a study visit to KMC.
